

S ABHIRAM REDDY

Full-Stack Developer | AI & GenAI Engineer

abhiramdev945@gmail.com | +91 95539 86227 | East Godavari(Dist), Andhra Pradesh, India

Portfolio | GitHub | LinkedIn

EXPERIENCE

Capgemini | Data Analyst

Mumbai | JULY 2025 - Present

- Trained in Advanced Python, Machine Learning, Deep Learning, NLP, Generative AI, PySpark, and Django, applying these technologies to data-driven and AI-focused solutions.
- Worked as a **Full-Stack Engineer** for a Dubai-based client, developing 2 web applications, designed backend architectures, REST APIs, database integrations, and client-server communication while integrating **Generative AI capabilities** and automating **ML pipelines**.
- Deployed web applications on **Azure App Services** and implemented **CI/CD pipelines** on Azure Repos to automate application builds and deployments.

IBM PHEME Software Pvt Ltd | Machine Learning Intern

Remote | MAY 2024 - JUNE 2024

- Developed a virtual try-on solution for beauty products using BiseNet and PyTorch
- Allows users to virtually try beauty products before purchasing
- This helps to reduce the number of returns and refunds by enhancing the shopping experience.

SKILLS

Programming Languages:	Python, Html, Css, JavaScript, TypeScript, Java
Libraries / Frameworks:	FastAPI, Django, React Js, Express Js, Node Js, Tailwind CSS, React Native, Expo
AI&ML / GenAI:	Machine Learning (ML), Deep Learning (DL), Natural Language Processing (NLP), Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Agentic AI, AI Agents, Model Context Protocol (MCP), Prompt Engineering
APIs & Real-Time:	REST APIs, WebSockets, Socket.IO, WebRTC
Cloud Services:	Azure, Amazon Web Services (AWS)
Tools / Platforms:	Git, Github, PostMan, Search Engine Optimization, MS office
Databases:	MongoDB, Firebase, MySQL, PostgreSQL, Pinecone

PROJECTS

MARKET MEA - Web | Link

React.js, Tailwind CSS, Express.js, Node.js, MongoDB, AWS

- Designed and developed the **end-to-end B2B web application** for a Dubai-based company, building the frontend with **React.js and Tailwind CSS** and the backend using **Node.js and Express.js**.
- Developed and integrated **REST APIs** with MongoDB using an **ODM-based data model**, implementing structured schemas while leveraging MongoDB's flexible document-based architecture.
- Implemented backend security and reliability features including **API rate limiting, HTTP cookies, authentication, and request handling** to improve application security and stability.
- Utilized **Node.js Worker Threads** for asynchronous processing of email and WhatsApp notifications related to account approvals and order status updates, integrating **Twilio WhatsApp APIs**.
- Performed **unit and functional testing** to validate application functionality, API behavior, and integration workflows across frontend and backend components.
- Deployed the backend on **AWS EC2** and hosted the frontend on **Amazon S3**, configuring the application for production deployment and client usage.

EDUFLEX - Web | Github

MERN, Python, Flask, LLMs & Gen AI, FAISS, JWT, YouTube API

- Developed a **full-stack Gen-AI powered e-learning platform** using the MERN stack and Flask, providing personalized learning resources, skill assessments, and learning roadmaps.
- Integrated **Gemini Pro GenAI** to generate personalized learning content, skill assessments, and roadmap recommendations based on user requirements.
- Implemented **AI-powered content retrieval** achieving over **85% relevance**, and integrated the **YouTube API** to dynamically recommend relevant educational videos.
- Designed scalable **REST APIs** using Flask and Express.js with **JWT-based authentication**, enabling secure communication between frontend and backend services.

- Implemented **real-time note-taking and video chat functionality**, creating an interactive and distraction-free learning experience.

FINBOOK - App & Web | Link

React Native, Expo, Firebase, G-Drive API, React.js

- Designed and developed a **cross-platform financial management application** for daily and weekly finance operations, evolving the product from a single-user web application into a multi-user and mobile-first solution based on user requirements.
- Developed the mobile application using **React Native and Expo**, implementing **Firebase** for local-first data storage to address customer data privacy and reliability concerns while supporting offline access.
- Engineered a **daily backup and restore system** using the **Google Drive API** to protect financial data against device loss, enabling users to securely recover application data.
- Reduced manual financial record-keeping by **300+ hours annually** and replaced **15+ books of paperwork per year**; validated the solution with **10+ finance professionals** and secured **2 customers** for customized web applications.

EDUCATION

KALASALIGAM UNIVERSITY
B.TECH COMPUTER SCIENCE AND ENGINEERING
CGPA: 8.41

TAMILNADU, INDIA
JULY 2021 - MAY 2025

SRI CHAITANYA JR COLLEGE
INTERMEDIATE MPC
Percentage: 91.6%

ANDHRA PRADESH, INDIA
JUNE 2019 - MARCH 2021

Z.P.H.SCHOOL
Degree in SSC
GPA: 9.5

ANDHRA PRADESH, INDIA
JUNE 2018 - MARCH 2019

CERTIFICATIONS

Certificate of Publication on "Control the Movement of Mouse Using Computer Vision technique", which allows persons with disabilities to control the mouse using eyes - **IEEE**
